

Guard the herd from BVD

Herd Guardian bulk milk BVD packages from Gribbles Veterinary are a critical part of tracking BVD on-farm.

- No on-farm sampling required
- Results are available the minute they are completed via the Gribbles' eResults app as well as via email or directly upload into your clinic's practice management software.
- Cost effective packages
- Multiple testing options for individual animals

Package A:

Suitable for herds at low risk of a drastic BVD incursion event
e.g. vaccinated, closed herds

Sample 1
pre-mating
•
Ab ELISA
+ PCR

Package B:

Suitable for herds sitting at a moderate BVD exposure on previous year's antibody test. Monitors the exposure level over the season. Checks the milking herd for active virus on two occasions before mating to ensure all cows have contributed to a bulk milk PCR.

Sample 1
pre-mating
•
Ab ELISA
+ PCR

Sample 2
pre-mating
•
PCR

Package C:

Suitable for herds that are at high risk of effects from a BVD incursion e.g. low exposure herds or open herds with multiple stock movements. Checks the milking herd for active virus and monitors the exposure level throughout the season. Indicates exposure over the season from non-milking sources. Helps determine BVD testing required for following season.

Sample 1
pre-mating
•
Ab ELISA
+ PCR

Sample 2
pre-mating
•
PCR

Sample 3
end of season
•
Ab ELISA

Package D:

Suitable for split calving herds. Checks for active virus and exposure level of cows in milk at two separate occasions.

Sample 1
•
Ab ELISA
+ PCR

Sample 2
•
Ab ELISA
+ PCR
